PROFESSIONAL EXPERIENCE

Front-End Engineer at Wildkard, *Remote/USA:* React.js, React Native, Graphql — Nov 2021- Ongoing
- Undertook the creation of the second version of the Wildkard App.
- Developed over 16 screens, using reusable, high-performance components. Through this experience, gained a keen understanding of best practices.
- Led bi-weekly design meetings and documented changes in the application for a complete QA script.

Front-End Engineer at Monk Medical(Keco Group Inc), *New York, USA:* — Mar 2021- Aug 2021
React.js, Firebase, Node.js, Styled Components
- Organized the end-to-end development cycle of the portfolio website of the company.
- Rehashed the company website by creating detailed, responsive components.

Front-End Engineer at Elta 360, *Istanbul, Turkey:* React.js, Firebase, Node.js — Oct 2020 - Mar 2021
- Developed and documented the website routing infrastructure for the Elta 360 platform.
- Revamped the account registration process to utilize reusable, responsive, high performance components.
- Rebranded, individually, the grid & list based homepage with the use of custom, intricate grid elements.

Data Scientist and Software Engineer Associate at Anodot, *Tel Aviv, Israel:* React.js, R — Jun 2019 – Aug 2019
- Created a web app for anomaly data interpretation. Sales engineers used this app to explain and sell the main product of Anodot.
- Ran weekly meetings with the sales engineers and customers to enhance user experience, as the first point of contact.

Founding Member and Developer at Hearo, *Istanbul, Turkey:* React Native, Auth0, Firebase, Xcode — Feb 2018 – Sep 2018
- Co-Founded and developed an application that effortlessly transcribes calls and voice messages.
- Managed user interface and user experience development including the homepage.
- Demonstrated an understanding of application ecosystems through a successful deployment launch on iOS.

EDUCATION
Northwestern University, *Evanston, IL* — 2016 - 2020
Bachelor of Science in Computer Science and Psychology

PERSONAL PROJECTS
Tadah|To-do Listing and Sharing Application: React.js, React Native — Dec 2020 - Nov 2021
